YOUNG FARMER RETURNS HOME

Calvin Hungerford of Near Moscow Comes Back, Despite Assertion He Would Stay Away.

DOMESTIC TROUBLE RUMORED
Reported That Settlement Will be Effected and Legal Separation Will be Sought.

Calvin Hungerford, the young farmer living a few miles north of Moscow, who disappeared from home Friday and who wrote letters to his father and deserted wife that he never intended to return, came back to Milroy to the home of his father, Dayton Hungerford, last evening. It is rumored that he has returned to arrange a settlement with his wife and that a divorce suit will follow.

Mr. Hungerford arrived in Milroy last evening over the Big Four from the south at 5:36 o'clock. Just as soon as he was recognized by his acquaintances in Milroy, everyone speculated on the reason for his sudden appearance. He was approached by the representative of the Daily Republican, but Mr. Hungerford said that he had nothing to say concerning his actions of the last few days.

The general story that is going the rounds in Milroy today is to the effect that Mr. Hungerford and his wife have had trouble which is the cause of him leaving home so suddenly. It is rumored that Mr. Hungerford came back to effect a settlement with his wife and that one of them will apply for a divorce so that they may be legally separated.

When it was reported in Milroy that Mr. Hungerford had deserted his wife and left for good, his Milroy friends were at a loss to explain his actions. They did not believe that the young farmer and his wife had had any trouble as they had lived together for nine years peaceably and they sought for another reason.

LOCAL RELATIVES PLAN TO ATTEND

Annual Reunion of Abernathy Family Will be Held in Marion August Sixth.

FAMED BROTHERS TO BE THERE

The annual reunion of the Abernathy family to be held at Matter park, Marion, August 6, will assume an interest and significance it has not hitherto known, in the announcement of the coming of the famous Abernathy boys, Lewis and Temple, famed from coast to coast and also abroad through newspaper pictures and stories as the plucky youngsters who rode from Oklahoma City to New York to greet President Roosevelt on his return from Africa. These boys are going to Marion, it is said, and the reunion of the family this year will be one of the largest in the State.

Relatives from Grant, Union, Wabash, Rush and Fayette counties will go in great numbers. Recently in the motion pictures at one of the local theaters, something of the life of the Abernathy boys, and the manner in which they hunt wild animals in Oklahoma, was depicted in a film, the various members of the family posing expressly for it.

AUGUST BUSY TIME FOR HIM

James E. Watson Will Deliver Chautauqua Address Every Day.

James E. Watson, beginning tomorrow, will probably be the busiest man of which Rushville can brag. Tomorrow he will deliver a chautauqua address and from that time until the last day of the month he will be continually occupied with making speeches at assemblies in all parts of the United States. He has an engagement every day and on some days he is billed to make two addresses. Some times he will be compelled to travel across four or five states in order to go from one place to another where he will be the main attraction at a chautauqua.

BOYS PLAY PRANKS CAUSING RUNAWAY

Youths Frighten Horse and Joseph Owens, Prominent Rush County Farmer, is Injured.

DEEP FLESH WOUND IN HEAD

Joseph Owens, a well known Rush county farmer, was seriously injured in an accident which occurred while he was driving through Middletown at about three-thirty o'clock Monday afternoon, says the Shelbyville News. As he was passing along the road two small boys jumped out from a hiding place and stood directly in front of the horse waving their arms and making all the noise of which they were capable. They succeeded in frightening the horse, which swerved suddenly throwing Mr. Owens from the buggy. In falling, his headstruck on a sharp stone in the road and a deep gash several inches in length was cut over his right temple. Persons who witnessed the accident hastily called Dr. Randolph from Waldron and the latter spent several hours with the injured man.

Mr. Owens remained unconscious for more than an hour after receiving the injury but recovered sufficient strength Monday evening to be able to be taken to his home. The names of the two boys who caused the accident were not learned.

MAY FILE PETITION

Indianapolis Paper Says Action in C. H. & D. Matter is Expected.

Several years ago, after a hearing, the State railroad commission ordered the C. H. & D. railroad to build a new station at Rushville, says the Indianapolis News. At that time the commission's orders could not be enforced only by action through the court, which was not taken. Since the commission has been empowered by a recent law to enforce its own orders, a petition signed by patrons of the road probably will be filed with the commission.

TAKES CHARGE OF STORE.

Havens & Riggs have retired from the hardware businesses as it was announced they would do some time ago. John B. Morris, formerly a partner in the Morris & Bassler hardware store, has taken active charge of the store. He purchased the stock recently.

A Chicago woman has secured a divorce because her husband refused to bathe even when she heated the water and put it in the bathtub for him.

FAMILY REUNION MONTH ARRIVES

Annual Period For Gathering of Clans in Rush County is Ushered in Today.

MANY WILL BE HELD HERE
Fair Ground Proves to be Most Popular Place For Reunions—Conditions Ideal.

August, the month of family reunions, was ushered in today under circumstances that are not very auspicious for a reuniting of the clans to discuss the family tree, the noble ancestors and the promising coming generations who will aspire to great things. Already many families in Rush county, as is their annual custom, have announced their annual gatherings for the month.

The fair ground is apparently the most popular place in the county for family reunions. More will be held there this year than ever before. The conditions there are ideal for such gatherings on account of the wide expanse of shady woodland and numerous places of shelter which are available in case of inclement weather.

Homestead Traditions.

There are still many families, however, who cling to the traditions of the old family and the family farm which has been handed down from generation to generation and they hold their annual gatherings there.

In former years the annual gatherings have interfered greatly with the harvest work, but for the most part the dates for this year have been arranged later so as not to interfere. This has resulted in a great number of outings being scheduled for the month of August and a number will fall on the same date. But there is ample room for all on the spacious grounds and it is expected the popularity of the place will be greater at the end of the month than even now.

It is doubtful if there is a family residing in the county that can not scrape up a relationship with the heads of families which have arranged for reunions. If there is a person or family in the county who is not related in any way they need not miss one of the best times of their lives, but will find a welcome awaiting them at any of the reunions. They will be fed until they can eat no more and will suffer with headache and other troubles until they will not soon forget the day and feast.

Some great times are celebrated at the fair grounds and many are the relatives who meet there once every year and do not meet elsewhere. Some come from a distance and in a few hours see and talk to those whom it would take weeks to hunt up and visit.

OUT AGAIN.

Greensburg News: Jack Crush and Charlie Miner who were jailed on Saturday afternoon on the charge of public intoxication, were given a lecture at 10 o'clock Monday morning before the mayor on their wrong doing and permitted to go, on promise to get out of the city.

IS THIS OUR RILEY?

Shelbyville Democrat: Riley William, a white man who had also been placed in jail on a charge of intoxication, was not so fortunate. He entered a plea of guilty to the charge of intoxication that had been preferred against him, but had no cash nor friends at hand to go replevin bail for him and he will have to remain at the jail for the next ten days, the amount of the fine and costs being \$9.05.

LOST IN HILLS OF RUSH COUNTY

"Flying Squadron" Had Rough Sailing and Did Not Get to Homer and Manilla.

FOUR MACHINES MAKE TRIP
Chautauqua Boosters on Final Tour, Were Greeted by Large Audience in Milroy.

The "Flying Squadron," which started out last night on the third and last trip of advertising the chautauqua, was a great success as far as it went, but after leaving Milroy, the trip was turned into an endurance run or a "joy ride," and the lights of Homer and Manilla, the other two towns it was intended to make, were never seen. That Rush county had such hills as were encountered never occurred to a majority of the party in the tour.

The four cars, led by A. P. Wagoner, left Milroy by the west road, turning north just at the edge of the town. The Wagoner machine had about half a mile start of the rest and at times it was impossible to see his rear light. The trail led to a point about one-half mile southeast of Gowdy. Here the road forked, and as Mr. Wagoner had disappeared and no one knew the road, Dr. Sparks turned to the right. This was where the trouble started. The road to the left goes straight into Gowdy and then it is a direct road to Homer. The three touring cars kept close together and after winding around a narrow road, encountered a hill, which was some hill.

When about half way up this hill, Frank Reynolds attempted to change gears on his car, which was between the Sparks auto and the machine of Byron Cowing. The gears failed to take hold and Mr. Reynolds was forced to put on the emergency brake to keep the heavy car from going back down the hill. After some difficulty the top of the hill was reached and the tour continued.

Mr. Wagoner waited in Gowdy and when the rest of the party failed to show up, he started out to find them. When overtaken by Mr. Wagoner, the tourists were about four miles southeast of Homer and had stopped to repair Mr. Reynolds' machine. As it was getting late, all hope of making Homer and Manilla was abandoned and the "Squadron" came back to this city. The crowd was in a good humor, despite the fact that they had traveled over hills resembling Brown county and over roads that angled and turned every ten feet.

The "Squadron" was late in getting started, but a large crowd greeted them in Milroy. A quartet composed of the Misses Martha and Nancy Hogsett, Dr. F. M. Sparks and T. A. Craig rendered several selections. Prof. J. H. Scholl spoke to an audience of several hundred people concerning the merits of the chautauqua and told of this year's talent.

Last night's trip was the last the "Squadron" will make. Manilla and Homer will be billed but not by the "Flying Squadron."

BREAKS COLLAR BONE.

Walter Osborne, a young man of near Glenwood, fell from his motorcycle while riding into Glenwood one day recently and sustained a broken collar bone. He was thrown from his machine when a Shepherd dog ran in front of it.

THE WEATHER.

Showers tonight or Wednesday morning. Probably followed by fair. Slightly cooler tonight east and south portion.

CAPT. ENOCH TO LEAVE CITY

Will Take up Salvation Army Work in Bicknell.

Captain M. E. Enoch, who has had charge of the Salvation Army here for the past six months will leave soon to take up the work in Bicknell, Ind. Capt. Enoch will deliver a farewell sermon Sunday night at the Salvation Army church. Mr. and Mrs. Enoch have been very successful in their work here and have made many friends. Capt. Isaac Popp of Anderson will come to this city to take the place of Mr. Enoch.

READY TO BUILD NEW STATIONS

I. & C. Directors in Session in Indianapolis Today May Approve New Structure Plans.

PLANS BEFORE LAW PASSED

At a meeting of the board of directors of the Indianapolis & Cincinnati Traction Company today in the office of J. F. Wild & Co., it is expected that plans for new passenger stations at Shelbyville and Connersville will be approved, says the Indianapolis Star. A bill introduced by Senator Will A. Yarling of Shelbyville and passed at the last session of the State legislature makes it mandatory for traction companies to erect modern stations in cities of more than 5,000 population. The bill was directed especially at the station at Shelbyville which it is asserted, is too small to accommodate patrons of the company at that place. The company already had prepared to build stations at Shelbyville and Connersville, however, before the Yarling bill was introduced. It is expected that the action of the officials in accepting the resignation of five conductors a few days ago will be approved by the board today.

MILROY MEN TO BOOST THE TOWN

Committee is Appointed at Meeting Last Night to Arrange For Something Attractive.

"FLYING SQUADRON'S" PART

Milroy is not to be left behind in the industrial progress that is becoming evident in the small towns in this section of the State. Last evening a booster meeting was held there and a committee of industrious business men was appointed to devise some plan to bring about industrial improvement. It is planned to hold a home coming, street carnival or something of that nature which will outshine the efforts of any other town in this vicinity. The committee will seek something new, unusual and attractive that it is hoped will bring people there from the surrounding country. The appearance of the "Flying Squadron," advertising the chautauqua, there last evening and the enthusiasm evinced by the Rushville crowd caused the Milroy men to renew their efforts at the meeting for a coming big day.

Among horses, irrespective of the question of breed, white is much more comomly seen on the hind legs, or on one of them, than on the fore legs.

DRAWS INTEREST AFTER ONE YEAR

Money Must Be Deposited in Postal Savings Bank For Twelve Months.

POSTMASTER RECEIVES NEWS
Local Clerks Will Have Charge of New Institution to be Established For Present.

It is definitely known that a postal savings bank will be established in Rushville, August 26, for Postmaster Charles Frazee received the official announcement from the department at Washington, D. C. yesterday. A postoffice inspector will install the bank according to the notice received. The local clerks will be in charge of it for the present.

The additional rules governing the bank and the prospective depositors, the first of which were published in the Daily Republican Saturday, are as follows:

Interest will be allowed on all deposits at the rate of 2 per cent. per annum, computed on each savings certificate separately and payable annually. No interest will be paid on money which remains on deposits for a fraction of a year only.

Deposits will bear interest from the first day of the month next following that which deposited.

Interest will continue to accrue on a savings certificate as long as it remains outstanding, certificates being valid until paid, without limitation as to time.

Compound interest is not allowed on an outstanding certificate, but a depositor may withdraw interest payable and include it in a new deposit which will bear interest at the regular rate.

A depositor may at any time withdraw the whole or any part of his deposits to his credit with any interest payable by surrendering savings certificates, properly indorsed, for the amount desired.

A depositor presenting a certificate for payment in full with all interest payable must indorse it on the back in the presence of the postmaster or his representative and surrender it. The postmaster or his representative, if satisfied as to the depositor's identity, will then make payment.

When a depositor desires to withdraw only a part of the amount called for by any certificate the postmaster will cancel the certificate and issue a new certificate covering the amount to be left on deposit. The new certificate will be so dated that the depositor will not lose interest on the amount remaining continuously on deposit.

When a depositor desires to withdraw merely the interest payable on any certificate, instead of indorsing and surrendering the certificate as in case of full payment, he will be required to give his receipt in duplicate for the amount of the interest paid. The postmaster will enter the interest payment on the back of the certificate and return it to the depositor.

When a person who has opened an account can not appear personally to make an additional deposit, because of infirmity or for any other good and sufficient reason, the amount to be deposited may be sent by a representative or forwarded by mail. On receipt of the amount the postmaster will send to the depositor the duplicate of each savings certificate to be issued. When the duplicate or duplicates thus delivered have been signed by the depositor and returned to the depository office, the postmaster will send him the original certificate covering the amount of the deposit. New

MAXWELL SPECIAL, \$1280 (top extra)

This Big New Maxwell for \$1280

A 36 h p Touring Car

1912's Undisputed Leader

POWER

The Secret of power in this new Maxwell Special is its 4 1/2 x 5 1/2 long stroke, smooth-running motor. Large valves, adjustable push rods, self-contained automatic oiling system, Stromberg carburetor, dual ignition with Splitdorf magneto and batteries, combine to produce more power and greater speed than will ever be needed.

The power is there for emergencies. Gear shifting is reduced to a minimum, as this car takes the steepest hills with ease.

Other mechanical features include large clutch discs, full-floating rear axle, sliding-gear transmission, drop-forged "I"-beam front axle and Columbia Honeycomb type of radiator. Wheel-base, 114 inches.

STYLE

This new ventilated fore-door, flush-side vestibuled steel body, with inside control, is the very latest thing in motor-car design. Its sweeping curves with a Columbia Honeycomb type radiator, new designed bonnet, and long, smooth flush-sides are strikingly beautiful. Finished in Royal green with Wedgwood green wheels and black upholstery, deep and well tufted, this car has an atmosphere found only in the most expensive cars. It is an aristocrat; the most artistic creation of the season.

PRICE

The price of this car is made possible by the unequalled factory facilities of the United States Motor Company, now recognized as the leading builders of automobiles in America. No car selling for \$500 more than the price we ask can match the Maxwell Special. Comparison with other cars will prove this statement beyond argument. We urge comparison.

Other Maxwell Models for 1912

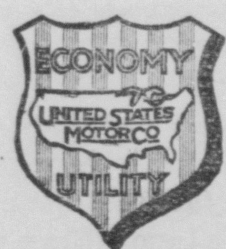

In addition, we announce:

The Maxwell Mercury, a 30-h.p. mile-a-minute Roadster, for \$1150.

The Maxwell Mascotte, a 25-h.p. Touring Car, for \$980; or a Roadster body for \$950.

The Maxwell Messenger, a 16-h.p. Runabout, at \$600.

All these cars are ready for August delivery at our 25 branches and 1800 dealers — so act promptly. Advance catalogue is just off the press. Send for it.

Division of **UNITED STATES MOTOR COMPANY**

R. D. EDWARDS, Local Agent, at Oneal Bros.

POWER, STYLE and RIGHT PRICE will determine the successful car of 1912. In building the new MAXWELL SPECIAL, the 36-horsepower Touring Car for \$1280, the United States Motor Company has developed these elements to their utmost. Never before has such a car been offered at this price.

We realized that most cars today are reliable and efficient. Therefore, we set out to build a car that would outclass all others in these three essentials.

We instructed our corps of engineers to embody abundant power and surpassing style in this new car, knowing that our purchasing and manufacturing facilities enabled us to build the car at a lower price than any of our competitors!

When we were satisfied with the car, we found we could fix the price at the surprisingly low figure of \$1280.

The new 36-h.p. Maxwell Special assumes instant leadership for 1912.

MAXWELL MERCURY

A 30-h.p. Roadster, \$1150
Here is a test-proven mile-a-minute roadster, with smooth, flush-side vestibuled and ventilated fore-door body, which is the height of perfection. Wheel-base, 110 inches. It is equipped with high-tension racing magneto, Stromberg carburetor, Columbia Honeycomb type of radiator with new designed hood, demountable rims, and a wealth of refinements, and is listed at \$1150 (top extra). It is another instance of Maxwell value, and incidentally is the swiftest and best appointed car of its type on the American market.

MAXWELL MASCOTTE

A 25-h.p. Touring Car, \$980
No car has ever achieved such widespread popularity as the Model "I" of which the MASCOTTE is the offspring.

We regret our inability to supply all the cars of this type that were demanded this season, but the increased production next year should enable us to meet the demand. It is the prettiest four-passenger 25-h.p. touring car that you have ever seen.

Among its features and refinements are a four-cylinder motor (4x4), supplying 25-h.p.; 104-inch wheel-base; new ventilated fore-door vestibuled body with smooth, flush-sides and inside transmission control, artistically finished in dark blue with battleship gray wheels; oil reservoir, cast integral with the crank case; Columbia Honeycomb type of radiator with new hood of beautiful design; irreversible worm steering-gear mechanism; Stoddard-Dayton type of spark and throttle control under steering wheel which will be 17 inches in diameter; springs of imported English steel, and ball-bearings of German Chrome Vanadium. The touring car with its extra-wide rear seat at \$980; the fore-door roadster at \$950.

MAXWELL MESSENGER

A 16-h.p. Runabout, \$600
This runabout with numerous refinements is beautifully finished in dark blue, with light-blue wheels. The car should have no trouble in retaining the leadership in runabouts held by its predecessor, known

as the Model "AB." Every manufacturing year has seen a shortage in these cars. It is unquestionably the greatest utility car ever designed for merchants and physicians. For five years its power plant and transmission have remained unchanged. The price remains the same, \$600, equipped with magneto, top, three oil lamps, two gas lamps and generator.

Something About the United States Motor Company

Buyers in 1912 will insist upon cars made by substantial concerns that are long past the experimental stage and whose cars will not decrease in value because of inability to get parts, or the fact that the company is no longer in business. The United States Motor Company, now considered the leading builders of automobiles in this country, has capacity to manufacture 35,000 cars for the 1912 season. The Company has a capital of \$42,500,000. It employs 14,500 men in manufacturing plants throughout the country. Its guarantee, therefore, is really worth something, and particularly its "Satisfied Owners' Policy," giving you free inspection service and care for your car through its 25 branches and 1800 dealers here and abroad.

45,000 MAXWELLS IN DAILY USE

They are used by enthusiastic owners—which best tells the story. Used by 14,000 physicians, who require admittedly the most consistent and reliable service—that's positive proof. A record of 91% of the five-year-old Maxwells again registered in New York this year—is taken from the official figures of the Secretary of State.

Satisfied Owners' Free Inspection Service

To facilitate constant and unflinching service of Maxwell cars, and to eliminate unnecessary repairs caused by oversight of required minor repairs and adjustments, lack of experience in, and mechanical knowledge of, the construction and skillful operation of his car, upon the part of the owner, we have instituted a Free Inspection Service.

The few motor troubles in cars of today are generally due to neglect of unsuspected minor difficulties and can be avoided by frequent inspection and instruction as to proper adjustment.

For one year after date of purchase, a Maxwell owner may take his car to the nearest Maxwell branch or dealer once a month, if necessary, for a thorough inspection without charge.

By the use of our Free Inspection Service, you reduce car trouble and repair expense to a minimum.

This monthly inspection service is in addition to the Company's standard warranty against defective material and workmanship, as published in our catalog.

**We care for your car
Wherever you are.**

THE DAILY REPUBLICAN

Published Daily except Sunday by

THIS PAPER REPRESENTED FOR FOREIGN
 ADVERTISING BY THE

AMERICAN PRESS ASSOCIATION

GENERAL OFFICES
 NEW YORK AND CHICAGO
 BRANCHES IN ALL THE PRINCIPAL CITIES

Automobiles are now being advertised for 350 each, but before buying we shall reflect on a previous experience with a \$20 horse and buggy.

Prisoners in the Rhode Island penitentiary are to get a Saturday half holiday. They may have to create a waiting list of applicants for admission.

An Oklahoma Indian says "civilized cooking" is gradually killing the red men. If he also adopts the civilized method of rapid eating, his end is surely near.

Chicago pays down its good money for 1,000,000 gallons beer on any one of these hot days, although no one was ever charged a cent for drinking out of Lake Michigan close by.

New steel barges are plying from St. Louis to New Orleans, but if we really wanted to get there, and did not care for periods of meditation on

intervening sand banks, we should set out to walk.

You can't really expect to get a warm welcome from your former fellow townsman at Old Home week, unless you have at least been indicted for violation of the anti-trust act.

It is announced that all wires between Washington and New York will be buried in underground conduits, except perhaps the wires by which Wall street makes its Congressional puppets dance.

Missouri farmers are urged to plant cow peas to prevent pastures from being burned up by the drought. But what is going to prevent the farmers from being burned up while he is planting them?

Senator Borah is being mentioned for vice-president. But would he ever bother to come on from Idaho merely to count how the Senators vote, which the clerk could do just as well?

President Taft is frequently reminded of the time when he was a newspaper reporter at \$12 per. He would never have earned more in this business, unless he learned more about boiling it down than his messages show.

EDITORIALETTES.

Careful survey of the newspapers shows that the hot weather don'ts include everything except going to bed with cold feet.

They say there are no stop-over privileges on the road to success even though it may be rough.

We presume that, if the limbs were burned, the leaves were terribly scorched.

Big drink of brandy revived a horse that fell from sunstroke in an eastern city the other day. Since the news hit a certain town, which we will not mention, they have all been playing horse there.

They say that once upon a time aviators were rather lonesome in the air but now the birdmen are traveling in flocks.

The world reserves all of its big prizes for only one thing, and that is initiative. Initiative is doing the right thing at the right time without being told. Next to doing the right thing at the right time without being told, is doing promptly when you are told once.

Those are Second street's sentiments. We ask 'em.

They say it wouldn't seem a bit natural without gas here.

'Tis said that some people would do well by emulating the busy bee, if they will go about their business and lay up honey for themselves and not try to sting somebody.

We read the other day that although it takes two to make a bargain, it only takes one ad. to make a bargain hunter.

The vacation period is at its height now. We presume the rest period will follow.

See our hand bill on our public auction lot sale, Saturday, Aug. 5. WAug.1.

SOCIETY NEWS

Miss Marie Clark will give a linen shower at her home in North Main street this evening for Miss Hazel Moore, a bride-to-be of this month.

Mrs. John H. Frazee will entertain the Happy-go-Lucky club Friday afternoon at her home in North Harrison street instead of tomorrow afternoon, on account of the C. W. B. M. meeting.

The members of the Tri Kappa sorority were delightfully entertained at the summer home of Miss Orma Innis, west of the city, yesterday afternoon. A typical country luncheon was served.

The Misses Louise Mauzy, Louise Craig, Florence Frazee, Edith and Erema Wilk have returned home from Anderson, where they attended a week-end house party given by Miss Juliet Crittenberger.

Mrs. Ernest Carpenter and Mrs. Jacob Weber entertained the members of the Rebecca lodge with a lawn fete at the home of Mrs. Weber in West Fifth street last evening. Refreshments of sandwiches, pickles, coffee, cake and pineapple were served to forty-six guests.

Mr. and Mrs. Elmer Frasher entertained informally a small company of friends at their home in North Perkins street last evening, honoring Mr. Frasher's brother and sister, Will Frasher and Miss Blanche Frasher of Pittsburg, Pa., who have been their guests for several days. Light refreshments were served.

Miss Mary Neutzenhelzer, daughter of Mr. and Mrs. Louis Neutzenhelzer of North Morgan street, and Will Doyle of Indianapolis, will be married at the Catholic parsonage by the Rev. W. J. Cronin at 6:30 o'clock this evening. Following the ceremony, which will be witnessed by only the immediate members of the family, a course dinner will be served to twenty-five guests at the family residence. They will go to Indianapolis this evening where their home is already furnished.

The Auxiliary to the C. W. B. M. will meet with Mrs. W. A. Allen Wednesday at 2:30 o'clock. The program will be in charge of the eighth division with Mrs. W. W. Offutt and Mrs. J. W. Brown as captains. The following is the program: Devotional—Mrs. J. B. McCarty. The Porto Rico of Yesterday—Mrs. Harry Lucas.

Music—Miss Janet Dean and mother. Story—Mrs. J. J. Finley.

Current news from the Tidings. A full attendance is anticipated, and at the business meeting there will be a pleasant surprise. Visitors are welcome.

AMUSEMENTS

The Vaudet will have the usual change of program tonight. The first picture is a Reliance drama, "In Flowers Paled." It is the story of two lovers, who after a quarrel, part and he desiring to make up sends her a large bouquet with a note in the center. The note is not seen by the young woman and causes the man to take up the life of a tramp. The other picture is an Ambrosia film, "The Evolution of Womankind." It is a comedy and deals with a woman who wears a harem skirt against the wishes of her husband. Miss Iva Brown has been engaged as pianist.

TRUSTEES WILL MEET.
 The township trustees will meet with County Superintendent C. M. George, Monday to make their statistical and financial reports for the fiscal year ending yesterday, July 31. At that time the school boards of this city and Carthage will also make reports.

SWAT FLY WITH SULPHUR.
 The merchants of Morristown have taken up Dr. Hurty's "Swat the fly" battle cry with a vengeance and nearly all of them have large traps at their stores where they catch large numbers of the pests. Then they treat them to a sulphur fume bath. The business part of town shows a marked scarcity of flies as a result of their efforts.

DRAWS INTEREST IN 1 YEAR

Continued from page 1.

accounts can not be opened by mail. When an intending depositor desiring to open an account is unable to appear in person he may forward the money by a representative, who will be provided with an application form, which must be properly filled out by the intending depositor and returned with the duplicate certificate or certificates.

When under similar circumstances a depositor can not appear in person to make a withdrawal, a blank order will be furnished for his use upon request by his representative. When such order has been properly filled in and signed by the depositor, with his signature witnessed by disinterested person, and has been returned to the postmaster, together with each certificate to be paid properly endorsed, payment will be made to the depositor's representative.

When a depositor who is unable to appear in person desires to withdraw merely the interest payable on any certificate, the blank order furnished will include receipts for the interest to be paid, upon return of which, properly signed by depositor, the postmaster will make payment to his representative.

In case of the death of a depositor the amount standing to his credit will be paid to the executor or administrator of his estate upon compliance with the necessary requirements. In case no formal administration is desired by his relatives, the postmaster may, if it is deemed proper, be authorized to pay the amount of the deposit, on application in proper form, to the persons entitled to receive it, without the appointment of an administrator.

A woman who opens an account and afterwards marries must present her savings certificates at her office in order that the certificates may be indorsed as payable to her in her new name. The postmaster will receive no further deposits from a depositor failing to comply with this requirement, nor will he make any partial or interest payment to her.

A depositor will be permitted to exchange the whole or any part of his deposits in sums of \$20, \$40, \$60, \$80, \$100, or multiples of \$100 up to and including \$500, into United States registered or coupon bonds bearing interest at the rate of 2½ per cent. per annum, payable semi-annually and redeemable at the pleasure of the United States after one year from date of issue, both principal and interest payable 20 years from such date in United States gold coin. Such exchange may be made under date of January 1 and July 1 of each year, provided such bonds are then available.

A depositor desiring to convert his savings deposits into bonds on January 1 and July 1 of any year must make application at least fifteen days before either of the dates named to the postmaster in triplicate on a form which will be supplied him for that purpose. At the time of making application he must indorse and surrender savings certificates covering the amount of the bonds desired, for which the postmaster will give him a receipt. Interest will continue to accrue on certificates surrendered until the date on which the bonds are issued. When the bonds applied for are received by the postmaster the depositor will be notified and the bonds will be delivered by the postmaster on presentation of the receipt for the certificates surrendered. At the same time all interest due on the certificates surrendered will be paid.

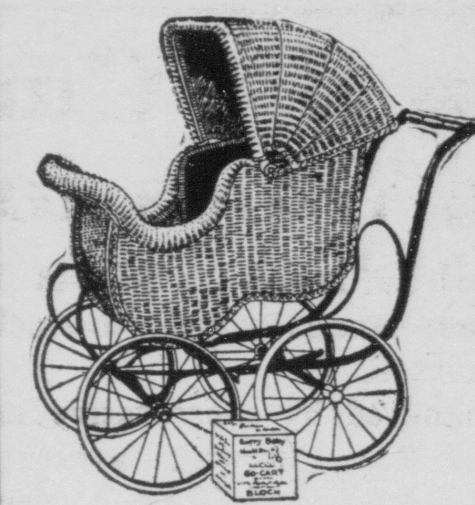

Savings deposits converted into bonds are not counted as a part of the maximum of \$500 allowed one depositor, and there is no limitation upon the amount of available postal-savings bonds which may finally be acquired by a depositor.

Postal-savings bonds are exempt from all taxes or duties of the United States, as well as from taxation in any form by or under state, municipal or local authority.

Postal-savings bonds can only be procured by the conversion of postal-savings deposits, and will not be issued to persons who are not depositors, but whether in registered or coupon form they may, upon receipt by the depositor, be sold and assigned at any time to any person desired.

Further information concerning the postal savings system may be obtained by application at any depositary office or by inquiry addressed to the postmaster general (Postal Savings System), Washington, D. C.

—Mr. and Mrs. Ed Mullins of Sexton went to Muncie yesterday to see James Ryan, who is seriously ill.

—Albert Bristor returned to Indianapolis this morning after a visit here with friends.

COLISEUM IS NEAR COMPLETION

Work of Roofing is Being Finished Before Sidewalls Are Erected.

WILL BE COMPLETED SUNDAY

It is highly probable that the coliseum in the city park will be finished in ample time for the opening of the chautauqua which will take place Sunday afternoon. A large force of men are at work on the building. This afternoon four-fifths of the sheeting had been put on and tomorrow work will probably be started on the roofing if inclement weather does not interfere. The sidewalls have not been put on but this is considered the smallest part of the work. With the force of men now employed it is thought that the sidewalls can be built in a day. An attempt is being made to complete the building with the exception of the sidewalls first, as the chautauqua could be held in the building without them in case bad weather should stop the work. The building was wired for electricity today and work was started at arranging the seats. One hundred seats were purchased from G. M. Carr, the ones which were used in the airdome, and were hauled to the city park this afternoon.

NEW POSTMASTER.

President Taft today settled the postoffice contest at Knightstown, Ind., by nominating William B. Zion for that office, says a Washington dispatch to the Indianapolis Star. There were several candidates mentioned for the place.

Hot Weather Hurts the Skin.

Poisonous perspiration causes rashes, hives, blotches, pimples and prickly heat, often the beginning of serious skin troubles.

To wash away the poison entirely, apply a simple solution known as D. D. D. Prescription for Eczema. D. D. D. is generally sold in \$1.00 bottles, but for 25c we can now give you enough to prove that the very first drops soothe and heal the inflamed skin as nothing else can.

We vouch for the wonderful properties of D. D. D. for we know that it brings instant relief for all kinds of skin troubles.

Lytle's Drug Store, Rushville, Ind.

WAS REVENGE THE MOTIVE FOR THIS?

Theory Upon Which Indianapolis Police Are Working.

Indianapolis, Aug. 1.—Unknown vandals have done damage aggregating \$2,000 to a business block here and the police are investigating on the theory that it was the work of sympathizers with organized labor. Albert Von Spreckelsen, a contractor, was remodeling the block. One year ago four houses which he was building were dynamited at the same hour and soon after he made peace with organized labor. He was before the grand jury recently in the McNamara investigation, and the police express the theory that labor sympathizers wished to revenge themselves for his supposed testimony before the grand jury respecting the dynamite outrages. Much of the plumbing in the block was torn out and rendered worthless, the walls were daubed with paint and the finish of the rooms was scarred and chipped so badly that it will have to be replaced.

If Many a Wife Knew About Orrine

There would be less of the terrible affliction that comes to many homes from the excessive drinking of husband, father or son. Orrine has restored thousands of men to lives of sobriety and industry, and best of all they have made their loved ones happier. Orrine is prepared in two forms, pill and powder; the latter form can be given secretly. Only costs \$1.00 a box—a trifle when compared with the amount a man would spend for drink in a day. We have sold ORRINE for years, and will gladly tell you all about it. Come in and get a free booklet.

Lytle's Drug Store, Cor. 3d and Main

STOP THAT DANDRUFF

before it kills your hair. You know dandruff is a germ disease and it leads slowly and surely to baldness and there is only one way to cure dandruff and that is to kill the germ that causes the trouble.

Greasy salves will never do this. ZEMO and ZEMO SOAP kills the germ and are guaranteed to cure dandruff, itching scalp and all other germ diseases of the skin and scalp.

ZEMO and ZEMO SOAP are the true scientific remedies for these afflictions. To show our faith in ZEMO and ZEMO SOAP we have instructed the druggist selling them to refund your money if you are not satisfied with the results from the very first bottle and the first cake of soap.

We can afford to make this offer because one bottle of Zemo and one cake of soap are sufficient to show their healing qualities and if used according to directions, they will effect a permanent cure.

Sold by druggists everywhere and in Rushville by F. E. Wolcott, Druggist.

Corns Removed Sore Feet Cured, 10c

You've no idea how quickly and easily foot troubles can be ended until you try a 10-cent box of Plex. "The quick-healing salve." Three applications will usually cure a bad case of aching, sweaty feet, and a few more will remove the corns and bunions. "Sounds big," but—just try it!

Plex is a wonder-working, penetrating ointment. It destroys germs, cleans and heals quicker than anything else you ever heard of. A big box for 10 cents, and it has a hundred uses in every home.

One application cures itching piles. Quickest, surest remedy for eczema, dandruff, and other skin troubles. Splendid for catarrh. Quickly repairs stiff, sore muscles. Unequalled for burns, cuts, etc.

Plex costs only 10 cents, but it quickly succeeds where costly remedies fail. Your druggist has it, or can easily get it for you. Sent prepaid on receipt of price by the O. C. Co., Terre Haute, Ind.

Hargrove and Mullin, Druggists.

Hay Fever, Asthma and Summer Colds

Must be relieved quickly and Foley's Honey and Tar Compound will do it. E. M. Stewart, 1034 Wolfram St., Chicago, writes: "I have been greatly troubled during the hot summer months with Hay Fever and find that by using Foley's Honey and Tar Compound I get great relief." Many others who suffer similarly will be glad to benefit by Mr. Stewart's experience. F. B. Johnson & Co.

HOLD THEM TO BE SUFFICIENT

Railroads Refuse to Enter Defense of Motives.

TILT WITH THE COMMISSION

Motives For Increasing the Minimum Freight Charges on Small Package Shipments Within the State and Afterward Annulling the Order Not Revealed to Commission When Inquiry Was Made.

Indianapolis, Aug. 1.—Before the state railroad commission representatives of railroads operating in this state declined to enter into a defense of any motive the roads might have had in the order issued several weeks ago to increase from 25 cents to 35 cents the minimum freight charges on small package shipments within the state. A committee from the roads, headed by Frank Littleton of the Big Four, stated that the action of the roads in filing a subsequent order annulling the order of increase was taken by the roads to be sufficient and asked that the hearing be cancelled. This the commission refused to grant and the railroad men, with their attorneys, withdrew. On the withdrawal of the committee Chairman Wood of the commission announced that the commission would proceed with the hearing, taking such evidence as shippers might wish to present. A large amount of documentary evidence was then submitted by shippers and was made a matter of record. A permanent order against the proposed increase is expected.

ACTION DELAYED

Strike Arbitrators Too Busy to Get Down to Work.

Terre Haute, Ind., Aug. 1.—No time has been fixed for the consideration of the mine disputes in Indiana, which were referred to John P. White, president of the United Mine Workers' International union, and H. N. Taylor, president of the Illinois Operators' association.

Pending a settlement of the labor troubles in Indiana the miners have returned to work. President White says he has so many engagements at present he does not know when he will be able to meet Mr. Taylor. W. H. Van Horn, president of the Eleventh district miners, has gone to Boonville to settle a dispute in one of the mines there.

Crop Prospects Discouraged Him.

Indianapolis, Aug. 1.—Despondent over the fact that the weather had been unfavorable to his crops, and fearing that the proceeds from his farm would be unusually small this year, A. Henry Kollman, forty-eight years old, a Marion county farmer, committed suicide by hanging himself in his barn.

Wants to Be President.

Gary, Ind., Aug. 1.—Backed by city officials, Mayor Thomas E. Knotts, first vice president of the American League of Municipalities, will seek the presidency of that organization at the coming convention at New Orleans during next month.

Husband Unable to Save Wife.

Evansville, Ind., Aug. 1.—Mrs. Ella Trickett, aged thirty, was drowned in the Ohio river here while bathing. The accident happened in the presence of her husband, who was unable to save her.

Old Game Worked at Evansville.

Evansville, Ind., Aug. 1.—Bud Scott, aged thirty-one years, whose home is at Sullivan, is under arrest here on the charge of passing two Confederate bills, one for \$20 and the other for \$10.

LORD ST. ALDWYN

Leader of Fifty Peers in Scheme to Pass Veto Bill.

London, Aug. 1.—It is reported that Lord St. Aldwyn (Sir Michael Hicks Beach) has pledged himself to lead fifty Unionist peers into the government lobby in support of the veto bill.

MUST TAKE IT BACK OR DO NEXT THING

Committee Lays Down Course for Alaskan Delegate.

Washington, Aug. 1.—After Attorney General Wickersham and Delegate Wickersham of Alaska had faced each other for six hours before the house committee on judiciary, the delegate was given to understand that it is up to him either to withdraw his charges against the attorney general or introduce a resolution of impeachment.

The committee seems to think that the delegate, who has charged his namesake with the gravest misuse of his high office, declaring "that he did purposely shield and defend Alaska syndicate criminals against punishment" and that he "refused to prosecute them for fraud and perjury committed in robbing the government treasury and permitted the statute of limitations to run in their favor," must do one thing or the other.

Delegate Wickersham has given no intimation of which alternative he intends to accept or whether he will ignore the suggestion of the committee.

Faithful Dog's Good Work.

Lawrenceburg, Ind., Aug. 1.—Elmer L. Terrill, aged fourteen, a son of Lewis S. Terrill, fruit grower, about two miles south of this city, fell over a thirty-foot embankment and broke his left arm and leg. His shepherd dog returned to the house and by its strange actions succeeded in leading Mr. Terrill to the creek bed, where his son lay unconscious and bleeding from his injuries.

TERSE TELEGRAMS

Edwin Abbey, the noted American artist, is dying in London.

President Taft is expected at Parramatta, the new summer White House at Beverly, about Aug. 10.

Dr. John Uri Lloyd has been offered the aid of the leading Democratic faction in Cincinnati for the mayoralty.

It is stated that Turkey will notify Montenegro that if she does not cease to harbor the Mallsores, war will ensue.

John D. Rockefeller has given \$100,000 to Baylor university at Waco, conditioned on \$400,000 being raised from other sources.

Several thousand advertising specialists have invaded Boston attending the annual convention of the Associated Advertising Clubs.

The state treasury of Nuevo Leon, Mexico, is bankrupt and there are no funds even to pay the employes their current salaries.

There seems to be a complete state of demoralization among the European health boards so far as the cholera situation is concerned.

Senator La Follette, as chairman of the committee on census, has submitted a minority report in opposition to the reapportionment bill as it passed the house.

Twelve thousand Mexican miners at El Oro mines, which are controlled by American, English and French capital, have struck and posted notices that all foreigners must get out.

It is stated that there will be some interesting testimony within the next few days in regard to the operations of the Tennessee Coal and Iron company when it was absorbed.

Following an adjustment of their demands, 600 mine workers of the Alden Coal company at Wilkesbarre, who have been on strike for the past three weeks, have returned to work.

Eleven lives are known to have been lost in the midsummer gale which swept the New England coast Friday, and the list of fishing and coasting craft and yachts wrecked or probably disabled is constantly growing.

BALD AT 35

Kill the Germs; Nourish the Hair Roots and You'll Never Grow Bald.

It's your own fault if you grow bald at 35 as thousands of men do; yes and women are doing. If you have dandruff there's a thousand or more germs already devouring the very life of the hair at its root.

Kill these germs with a 50 cent bottle of Parisian Sage, and stop dandruff, itching scalp and falling hair in two weeks.

It's guaranteed, you know; this delightful and refreshing Parisian Sage that is now sold all over America, and if it doesn't prove better than any other hair tonic you ever used, get your money back. Large bottle 50c at Johnson's drug store and druggists everywhere.

Demonstration Orchards.

The demonstration orchards of the horticultural department are proving more than a success. The work has been carried on in seven different representative orchards ranging in size from four to forty acres. All operation in these orchards are personally superintended by the department, so that exact data are kept on all spraying, pruning, fertilizing, cultivating and harvesting operations. In every orchard one row of trees is left uncared for, so that comparisons may be drawn. When the fruit is ripe in the fall a meeting is advertised and the farmers and fruit growers of the vicinity meet in the orchard and hear a discussion of the methods of handling, and see the results of the work.

The demonstrations have shown that the value of the average orchard will be increased from 85 to 95 per cent. when handled as well as possible under average farm conditions, and that this increase may be realized at a cost of fifteen or twenty cents per tree.

Good Strawberry Crop.

The horticultural department has just finished harvesting the strawberry crop. There are 124 varieties of berries in the variety test experiments that have produced a very good crop despite the dry weather. The crop is much better than that reported by commercial growers in the vicinity, because of the more careful cultivation given.

A Nutritious Zephyr.

The actor's sense of humor is always uppermost. He will jest about his hard work, his ill luck or almost anything that offers an opportunity for a joke, but in spite of this he is a far more serious person than the general public believes him to be. Generally, too, he has courage—the courage to smile when his heart is heavy.

An instance of this kind of courage is shown in the following story: A comedian, who was known to be in desperate straits, was invited to a social gathering one evening. When the poor actor arrived he was seen to be thinly clad, although the weather was bitter cold. He looked, also, as if he had not had any too much nourishment for some time. The hostess greeted him cordially.

"I am so glad to see you," she said. "How well you are looking!"

"Yes," replied the comedian; "the wind has been very nutritious of late."

Maine's Deserted Villages.

Maine has a number of deserted villages, among which not the least picturesque is Hanover, where the growth of trees is so thick that the ruined walls of the houses can hardly be seen. Forty families lived at Hanover at one time, and the school house held 60 pupils. All the families have disappeared from the section, and even a settlement some miles away contains no survivors of the original Hanover.

SAGE TEA WILL DARKEN THE HAIR

Restore Faded and Gray Hair to Natural Color—Dandruff Quickly Removed.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect. Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agents, Hargrove and Mullin Druggists, Rushville, Indiana.

MONUMENTS MONTELLO RED AND MILLSTONE GRAY GRANITES

Extreme hardness of these materials produce inscriptions that are legible for an indefinite period of time. We have on display at our works, 117-121 Main street, the largest and finest stock of Monuments and accessories in this section.

Poultry House Construction

By A. G. Phillips

Animal Husbandry Department, Purdue University

Poultry House.

Interior of Poultry House.

A. G. Phillips, Animal Husbandry Department.

The poultry house is the home of the hen and as such, should provide sunshine, fresh, dry air and no drafts, all of which are necessary in supplying comfort and cheerfulness. One of the requisites for the production of eggs is that the hen shall be happy and kept in congenial surroundings. Years of experiment and observation by many experiment stations and practical poultrymen, have proven that the "open front" is the most universally satisfactory type of poultry house. This type of house supplies plenty of fresh, cold, dry air, free from drafts and an abundance of sunlight, the window through which light may main things necessary in any hen house. The area of the house is controlled by the size of the flock, but four feet, should be open, covered with square feet per fowl is generally satisfactory. Fowls should never be crowded. Thus for 50 fowls a house on stormy or cold nights. The foundation should be six inches above the floor and the roosts movable above ground and at least 12 inches below, in order to keep out damp-males or brooding hens. The feed nest and frost. A good width at the platform allows cleanliness of all water is four inches. Any person building such a house poultry, because when properly made will find it cheap, easily constructed it is dry, rat proof and sanitary. The and entirely satisfactory.

The height of the house is controlled by its depth. It should be high enough to allow sunlight to strike the rear of the house sometime during the day. A house 15 feet deep should be nine feet in front and four and one-half feet deep in the rear. A large amount of air space is necessary. The walls should be absolutely tight, except the front, which should be open. Double walls are not necessary. An open front with tight walls, allows no draft.

The front should contain a glass fresh, cold, dry air, free from drafts and an abundance of sunlight, the window through which light may main things necessary in any hen house. The area of the house is controlled by the size of the flock, but four feet, should be open, covered with square feet per fowl is generally satisfactory. Fowls should never be crowded. Thus for 50 fowls a house on stormy or cold nights. The foundation should be six inches above the floor and the roosts movable above ground and at least 12 inches below, in order to keep out damp-males or brooding hens. The feed nest and frost. A good width at the platform allows cleanliness of all water is four inches. Any person building such a house poultry, because when properly made will find it cheap, easily constructed it is dry, rat proof and sanitary. The and entirely satisfactory.

The interior fixtures should all be 15x15 feet is a good size. The coop can be used for extra below, in order to keep out damp-males or brooding hens. The feed nest and frost. A good width at the platform allows cleanliness of all water is four inches. Any person building such a house poultry, because when properly made will find it cheap, easily constructed it is dry, rat proof and sanitary. The and entirely satisfactory.

Loss of Time Means Loss of Pay.

Kidney trouble and the ills it breeds means lost time and lost pay to many a working man. Mr. Balent, 1214 Little Penna St., Streator, Ill., was so bad from kidney and bladder trouble that he could not work, but he says: "I took Foley Kidney Pills for only a short time and got entirely well and was soon able to go back to work, and am feeling well and healthier than before." Foley Kidney Pills are tonic in action, quick in result—a good friend to the working man or woman who suffers from kidney ills. F. B. Johnson & Co.

Foley Kidney Pills will check the progress of your kidney and bladder trouble and heal by removing the cause. Try them. F. B. Johnson & Co.

Standard Oil Announces Its Plan of Dissolution.

STOCK TO BE REDISTRIBUTED

In Conformance to the Decree of the Supreme Court, Gigantic Trust, Ordered to Dissolve, Has Issued a Notice to Its Stockholders Announcing the Method by Which Dissolution Will Be Accomplished.

New York, Aug. 1.—A circular addressed to the stockholders of the Standard Oil Company of New Jersey gives notice of the final steps in the dissolution of the Standard Oil trust. This was the holding company of the trust and through it the distribution of stocks of the subsidiary or constituent companies is to be made. The notice reads:

"To Stockholders of the Standard Oil Company of New Jersey: Obedience to the final decree in the case of the United States against the Standard Oil Company of New Jersey et al requires this company to distribute ratably to its stockholders the shares of stock of the corporations which it owns directly or through its ownership of the stock of the National Transit company, to-wit: Anglo-American Oil company, limited, Atlantic Refining company, Borne-Seymour company, Buckeye Pipe Line company, Chesebrough Manufacturing company (consolidated), Colonial Oil company, Continental Oil company, Crescent Pipe Line company, Cumberland Pipe Line company (incorporated), Eureka Pipe Line company, Galena Signal Oil company, Indiana Pipe Line company, National Transit company, New York Transit company, Northern Pipe Line company, Ohio Oil company, Prairie Oil and Gas company, Solar Refining company, Southern Pipe Line company, South Pennsylvania Oil company, Southwestern Pennsylvania Pipe Line company, Standard Oil Company of California, Standard Oil Company of Indiana, Standard Oil Company of Kansas, Standard Oil Company of Kentucky, Standard Oil Company of Nebraska, Standard Oil Company of New York, Standard Oil Company of Ohio, Swan & Finch company, Union Tank Line company, Vacuum Oil company, Washington Oil company, Waters-Pierce Oil company.

"Such distribution will be made to the stockholders of the Standard Oil Company of New Jersey of record Sept. 1, 1911, and for that purpose the transfer books of the company will be closed on Aug. 31 at 3 p. m., and kept closed until a date when said stocks are ready for distribution, which, it is said, will be about Dec. 1, 1911.—H. C. Folger, jr., secretary."

The Meaning of It.

This does not mean, so M. F. Elliott, chief counsel for the Standard Oil company pointed out, that the Standard Oil Company of New Jersey will go out of business on Dec. 1. It will continue as a manufacturer of petroleum products and it will continue to run the biggest oil refineries in the world.

Besides the stock which the Standard of New Jersey owns in the thirty-three corporations of which it is ordered to rid itself, it held shares in many other corporations. What will become of this stock Mr. Elliott did not wish to say. There appears to be nothing in the supreme court decree or in that of the lower court, however, which prevents the Standard of New Jersey from maintaining ownership, so said Mr. Elliott.

The scheme by which the Standard will dissolve connection with the thirty-three companies which have been regarded as subsidiaries, has been under consideration by the directors for many months. It was said at 26 Broadway that to apportion the stock among the stockholders in the major corporation was the only way of meeting the letter of the supreme court's decree. Mr. Elliott added that the company proposes not only to meet the letter of the order, but the spirit of it also. The scheme outlined in Secretary Folger's letter, so it was pointed out, is not to be taken as a reorganization of the Standard Oil Company of New Jersey. It is a dissolution. The effect of the plan is to disassociate the companies formerly under its control and to cause the Standard of New Jersey to continue a manufacturing concern.

The accountants will have some intricate work to do in figuring out the fractional shares in the minor corporations which the stockholders in the present Standard Oil of New Jersey will have when the dissolution is completed. The basis of the figures must necessarily be on a single share of Standard Oil of New Jersey stock. Of the 6,000 stockholders there are many who own small lots, ranging from a single share to ten or a dozen. A man owning a single share of stock, which could be bought today on the curb for \$659, will have after Dec. 1 next a share in Standard Oil of New Jersey, worth at par \$100, and fractional shares in the numerous other companies, for instance in the Washington Oil company, in which, to be precise, he will have seven and thirty-seven two-hundred and fiftieths cents worth.

JOHN W. GATES.
Snapshot of Steel Magnate Who Is Seriously Ill In Europe.

Photo by American Press Association.

Paris, Aug. 1.—Charles G. Gates said that there had been a slight change in the condition of his father, John W. Gates, who has been ill here for some time. It is admitted that the elder Gates is in a most serious condition, and the son said it known that his father was semi-conscious.

NEW YORK GOBBLED MEXICAN RAILWAY

Diaz and Limantour Said to Have Sold Out.

Mexico City, Aug. 1.—With the resignation of General Diaz as president and his minister of finance and public credit, Jose Yves Limantour, the control of the National Railways of Mexico passed out of the hands of the government, according to men close to the government and identified with the leading businesses in Mexico.

It is rumored in highest railway and banking circles in the capital that the reason Madero placed his representatives on the board of the merger company is because the government now controls barely 41 per cent of the stock. The same reports are to the effect that the Diaz government maintained control of the company through the personal holdings of General Diaz, Mr. Limantour and their group of friends. With their retirement from office and departure from Mexico, it is authentically stated that their holdings have been disposed of and that now certain great financiers of New York, and not the Mexican government are in control.

Youthful Murderer Indicted.

New York, Aug. 1.—Paul Geidel, the seventeen-year-old bellboy who wanted to get money to buy gaudy clothes and so strangled a helpless old man in his room at the Iroquois hotel, was indicted by the grand jury for murder in the first degree.

BAN OF SECRECY SEALED CAUCUS

House Democrats Guard Against Inconsiderate "Leaks."

CAMPAIGN PUBLICITY BILL

Was the Subject of a Caucus at Which a Stringent Resolution Was Adopted Forbidding Any Member or Employee Giving Out Anything Regarding the Solemn Deliberations of the Body.

Washington, Aug. 1.—More than 150 Democrats attended the caucus in the hall of the house last night which was called to decide upon the policy of the majority party of that body with reference to the senate amendment to the campaign publicity bill.

The caucus adopted a stringent resolution forbidding any member to declare anything that might happen during the proceedings, and threatening the instant discharge of any employee discovered giving out information on the subject. The passage of this resolution was the result of the publication of the row between Mr. Clark and Majority Leader Underwood at the caucus a week ago which approved the cotton bill. It is understood that Representative Rucker of Missouri, chairman of the committee on elections, would be directed to call up in the house at the first opportunity the campaign publicity bill with all senate amendments and move its passage in that form.

FARMERS' FREE LIST

House Bill in That Behalf Will Be Urged by Senate Democrats.

Washington, Aug. 1.—The Democrats of the senate in caucus last night decided to stand for the farmers' free list bill as it came from the house without amendment. In the event of the bill in its present form being voted down, which seems likely, a motion will be made to reconsider it, and Senator Kern of Indiana, on behalf of the majority of the caucus, will introduce an amendment providing that meat and flour shall be admitted free from any country which in turn admits free from duty wheat, corn, oats, hay, cotton and hogs.

A NOTICEABLE COOLNESS

Theodore Shonts and Wife Didn't Speak Upon Meeting.

New York, Aug. 1.—Mrs. Theodore P. Shonts and her two daughters, the Duchess De Chaulnes and Miss Marguerite Shonts, and the duchess's little son, arrived from Europe on the Rotterdam. Mr. Shonts went down the bay to meet the party, but he and his wife did not speak to each other on the ship. There were indications, however, of an approaching reconciliation.

When asked about the reports of a disagreement between himself and his wife, Mr. Shonts replied that he would not dignify them by discussing them. Mrs. Shonts said "those reports have already been denied. I am not responsible for false reports."

SHOT WIFE-BEATER

Memphis Newspaper Man Interfered in Woman's Behalf.

Memphis, Tenn., Aug. 1.—After being beaten into insensibility, A. M. Keister, sporting editor of a local afternoon paper, formerly of Louisville, Ky., fatally shot William Chum, a plumber, who was beating his wife when Keister intervened. Keister was attracted by the cries of the woman and was entering the room when Chum knocked him down and beat him until he was unconscious. A negro maid brought Keister a pistol, and the latter fired twice. Chum was rushed to a hospital and is in a critical condition.

MORE FINES PAID

Wire Trust Men Marching Up to the Captain's Desk.

New York, Aug. 1.—Thirteen more of the indicted wire men entered pleas of nolo contendere in the circuit court and were fined \$1,000 each. Commissioner Shields received \$15,500 in fines, which brings the total payments to date up to \$71,400. Of a total of eighty-three indicted men, sixty-two have now pleaded nolo contendere. Judge Archbald will sit again on Friday to receive more pleas. Herbert L. Satterlee, J. P. Morgan's son-in-law, it is understood, will then appear and plead.

A Kentucky Patricide.

Pikeville, Ky., Aug. 1.—William Johnson, aged fifty, a laborer employed by the Shelby Creek railroad, was stabbed and killed by his son, William Lee Johnson, twenty-one years old. Young Johnson was arrested and stated that he and his father had been quarrelling over family affairs.

Wife's Shocking Discovery.

Pikeville, Ky., Aug. 1.—Wick Compton, aged thirty-two, a foreman in a lumber camp, two miles south of here, shot and killed himself. Compton's body was found in his bed by his wife.

FARMERS TRUST COMPANY
RUSHVILLE, INDIANA

THIS IS TO CERTIFY THAT John Doe
has this day deposited with the FARMERS TRUST COMPANY, RUSHVILLE, INDIANA,
One Thousand Dollars, payable to
the depositor or order Six (6) months from date, with interest at the rate of 3 1/2
per cent, per annum upon the surrender of this Certificate properly indorsed.

If this deposit is not withdrawn on the date of maturity, a bank draft in payment of accrued interest will be sent on that date to the registered holder of this Certificate at the last address given, and this Certificate will be considered renewed for a similar period and on the same conditions, and will so continue until presented on a maturity date. The Farmers Trust Company reserves the right to redeem this Certificate on any maturity date by giving notice of such intention, in writing, to the registered holder at least sixty (60) days before such maturity date.

DATED March 11, 1911
RUSHVILLE, INDIANA

FARMERS TRUST COMPANY

ADVANTAGES OF OUR SELF-RENEWING CERTIFICATES.

1. It is a short time investment, usually for six months, although we write identically the same certificate at a higher rate of interest on TWELVE MONTHS time and is suitable for surplus funds or funds awaiting permanent investment.
2. Either certificate can be renewed from time to time by simply HOLDING THE CERTIFICATE and thus make it a permanent investment.
3. Either relieves the holder from the annoyance of collecting interest and having the certificate renewed at every maturity date. We mail you interest check to your last known address on each maturity.
4. This company will make loans to the face value of the certificate.
5. There is absolutely no speculative value in these certificates and they are not affected by the rise and fall of the security market. THEY ARE ALWAYS WORTH PAR.
6. We claim to pay you on the year certificate the highest rate consistent with absolute safety and permanence of the principal.

In addition to the above, WE PAY INTEREST ON CHECKING ACCOUNTS above a stated limit.

WILL M. SPARKS IS MENTIONED

Former Circuit Judge of This City is
Considered Most Logical Candi-
date For Congress.

OTHER SIXTH DISTRICT GOSSIP

James E. Watson, Former Congress-
man, is Also Mentioned as
a Candidate.

Although Will M. Sparks of this city, former judge of the Rush-Shelby circuit, steadfastly holds to the assertion that he will not accept the Republican nomination for congress from the Sixth district, his friends over the district contend that he shall be the candidate in 1912. He is being prominently mentioned as the most logical candidate in the district. In the following political gossip concerning the Sixth district, written by George M. Stout in the Indianapolis Star, the name of James E. Watson is also mentioned as a likely candidate.

Talk of Tom Davidson of Greensburg, Decatur county, as a Sixth district quantity when it comes to nominating a Republican to run against Representative Finly Gray of Connersville is a little bit far-fetched, when it is recalled that Decatur county has been legislated, or gerrymandered into the Fourth district. There is nothing in the law to compel the Republicans of a district to nominate a man for representative who lives within the district, but it is the custom so to do.

There is nothing to indicate that the Sixth will go to the Fourth or to any other district, outside the Sixth, to get a nominee for representative. Representative Finly Gray apparently had Tom Davidson in mind when he worked to induce the Democratic legislature to slip Decatur county and Tom Davidson into the safely Democratic Fourth and out of the uncertain Sixth. Not only did the move take Davidson out of the prospect, but it also carried Decatur county's comfortable normal Republican plurality away with it, and aided materially in advancing Representative Gray's plans for further practical experience as a member of the National House. The New Castle Times suggests Mr. Davidson as a possible contender for the next Republican nomination in the Sixth. But the boom is not likely to get far under existing circumstances.

Davidson was regarded as the strongest probable opponent against Judge Barnard for the Republican nomination two years ago. Davidson had been a close contender once before, and the movement to defeat Barnard for a renomination was cen-
